LOCATING RING SHIMS

M 316 Stainless Steel

CATALOG NUMBER	THICKNESS
LRS-02	.002"
LRS-03	.003"
LRS-05	.005"

APPLICATION GUIDELINES

- Shims allow for pre-loading the flanged Locating Rings to compensate for a worn or dished platen as well as compensate for high injection pressures in the center of the mold.
- Three thicknesses to enable preload for the center of the mold.
- Sold individually to accommodate stacking requirements.
- Sized with screw clearances for use with flanged Locating Rings sold on page B-3.
